# MARINE POLLUTION BULLETIN

## The International Journal for Marine Environmentalists, Scientists, Engineers, Administrators, Politicians and Lawyers.

The *Marine Pollution Bulletin* sets out to cover all aspects of the fight for life of the lakes, estuaries, seas and oceans. It includes news, comment, reviews and research reports, not only on the threat of noxious substances to marine life but also on the management and productivity of the marine environment in general. It publishes accounts of new and proposed research programmes as well as the results of those in progress.

### Subscription Rates

Annual institutional subscription rate (1992): £185 (US\$335). Two-year institutional rate (1992/93): £351.50 (US\$636.50). Sterling prices are definitive. US dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice. Subscription rates for Japan are available on request.

Whilst every effort is made by the publishers and editorial board to see that no inaccurate or misleading data, opinions or statements appear in this journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements herein are the sole responsibility of the contributor or advertiser concerned. Accordingly, the publishers, the editorial board and editors, and their respective employees, officers and agents accept no responsibility or liability whatsoever for the consequences of any such inaccurate or misleading data, opinions or statements.

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

### Photocopying information for users in the U.S.A.

The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying, beyond that permitted by Section 107 or 108 of the United States Copyright Law, is paid. The appropriate remittance of \$5.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970. The Item-fee Code for this publication is: 0025-326X/91 \$5.00 + 0.00

### Permission for other use

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

### Instructions to Authors

- Forms of contributions:** Research Reports (maximum 2500 words of text), shorter research Notes, Baseline records of contamination levels, Viewpoint articles, and Letters to the Editor are considered for publication. Submit manuscripts to the Editor, Dr C. Sheppard — North American submissions to Dr John Pearce and Baseline submissions to Dr David J. H. Phillips (addresses opposite on title page).
- Style of contribution:** Manuscripts to be in the English language with (a) Main title (not more than 2 lines printed), (b) author's name, affiliation, and present postal address, (c) informative summary (not more than 150 words), (d) text, (e) acknowledgements, (f) references, (g) tables, (h) captions to figures. Submit 2 copies of the manuscript typed with double spacing throughout and with wide margins (4 cm). All tables and figures should be numbered with Arabic numerals. In the text the word 'Figure' should be abbreviated to 'Fig.' except at the beginning of a sentence. Avoid hyphenation at end of a line. Weights and measures must be expressed in metric units according to the *Système Internationale* (non-metric equivalents, if appropriate, can be included in parentheses). All non-standard abbreviations or symbols should be defined when first mentioned.
- Tables:** Tables of data should be submitted on separate sheets and not included in the text. Very extensive tables of data are of questionable value and authors should consider more succinct ways of presenting essential information. The same data should not be presented in both tabular and graphical form.
- Figures:** All photographs, schemes, and drawings should be referred to as figures, numbered consecutively on separate sheets. On the back or margin, the author should write his name, the figure number, and the orientation of the figure. One set of figures should be of a quality suitable for reproduction (original drawings or high quality photographic reproduction; **xerographic copies are not acceptable**); photographs should be sharp with clear contrasts. Scales, if needed, should be shown on the drawing or photograph.
- References:** References should be listed at the end of the text in strict alphabetical order of authorship and year of publication. Give all authors' names, full article title, and inclusive pages. Journal titles should conform with abbreviations in the *World List*. Citations in the text should be by author and date, given in parentheses; 'et al.' is used for papers with three or more authors. Examples:  
*Journal:* Swedmark, M., Granmo, A. & Kellberg, J. (1973). Effects of oil dispersants and oil emulsives on marine animals. *Water Res.* 7, 1649-1692.  
*Book:* Bryan G. W. (1976). Heavy metal contamination in the sea. In *Marine Pollution* (R. Johnston, ed), pp. 185-302. Academic Press, London.
- Proofs:** Unless otherwise specified, galley proofs will be sent to the first-named author for correction. Excessive alterations should be avoided. Corrected proofs should be returned to the Editor, Dr C. Sheppard (address opposite), corrected *Baseline* proofs should be returned to Dr Phillips (address opposite).
- Reprints:** 25 free reprints. Additional reprints can be purchased at a reasonable cost: an order form will be enclosed with the galley proofs.
- Content:** Although all contributions are subject to peer review, responsibility for the contents of papers rests upon the authors and not upon the editor or the publisher. It is therefore important that the contents of the manuscript are carefully considered by authors. The author must agree not to publish the same manuscript in any other journal without obtaining the consent of the editor of this journal.

# MARINE POLLUTION BULLETIN

**The International Journal for Marine Environmentalists,  
Scientists, Engineers, Administrators, Politicians and Lawyers.**

## 1. Viewpoints

*Marine Pollution Bulletin* has been publishing commissioned 'Viewpoint' articles since 1977 by senior and authoritative experts in marine pollution. The Editorials and Viewpoints are important and influential features of the journal which express opinions about current events. Recent viewpoints include:

Use of bio-indicators in monitoring conservative contaminants: programme design imperatives—D. J. H. Phillips & D. A. Segar

Marine pollution mismanagement: towards a precautionary concept—V. Dethlefsen  
Science—a time of change?—E. I. Hamilton

The IOC programme on marine pollution—Gunnar Kullenberg

Mercury in the Mediterranean basin—R. Ferrara & B. Maserti

World-wide death of corals—natural cycling events or man-made pollution—B. E. Brown

Ecological and human health concerns in ocean disposal of wastes—Judith Capuzzo

The modern prevalence of beach erosion—E. C. F. Bird

Marine treatment and marine protection—The need for harmony—N. C. D. Craig & J. R. Lawrence

## 2. Special Issues

*Marine Pollution Bulletin* also publishes special topic issues from time to time, which are also available separately to non-subscribers, direct from the Publisher. Special issues published to date are:

Vol. 23 (1991) *Environmental Management and Appropriate Use of  
Enclosed Coastal Seas*  
Edited by Takeshi Goda *et al.*

Vol. 20 No. 7 (1989) *Pollution in the Far East*  
Edited by David J. H. Phillips

Vol. 19 No. 11B (1988) *Incineration at Sea and Artificial Reefs*  
Edited by M. Waldichuk

Vol. 19 No. 9 (1988) *Chesapeake & San Francisco Bays*  
Edited by D. A. Wright & D. J. H. Phillips

Vol. 18 No. 6B (1987) *Plastics in the Sea*  
Edited by Douglas A. Wolfe

Vol. 17 No. 4 (1986) *Submarine Sewer Outfalls*  
by B. Quetin & M. de Rouville

Vol. 16 No. 4 (1985) *Cellular Toxicology and Marine Pollution*  
Edited by B. L. Bayne

Vol. 15 No. 2 (1984) *Bristol Channel and Severn Estuary*  
Edited by R. S. Glover

Vol. 12 No. 6 (1981) *State of the Baltic*  
Edited by G. Kullenberg

Vol. 10 No. 10 (1979) *Pollution in the Mediterranean*  
Edited by R. B. Clark

Vol. 9 No. 11 (1978) *The Amoco Cadiz Oil Spill*  
Edited by M. F. Spooner

# DEEP-SEA RESEARCH

## PART A

### Oceanographic Research Papers

DEEP-SEA RESEARCH IS PUBLISHED IN TWO PARTS, PART A, OCEANOGRAPHIC RESEARCH PAPERS, AND PART B, OCEANOGRAPHIC LITERATURE REVIEW

Editor: **JOHN D MILLIMAN**, *Department of Geology and Geophysics, Woods Hole Oceanographic Institution, Woods Hole, MA 02543, USA*

This journal is devoted to the publication of the results of original scientific research, the solution of instrumental problems, and new laboratory methods in the marine sciences. It is unique in the field of oceanography in its interdisciplinary approach covering a wide variety of subjects related to the geological, physical, mathematical, chemical and biological aspects of the ocean, the sea floor and the boundary layer between the atmosphere and the ocean. Papers that are particularly timely or topical may receive accelerated editorial response and publication as Rapid Response Papers.

### A Selection of Papers

**F L SAYLES & W H DICKINSON** (USA), The ROLAI<sup>2</sup>D lander: a benthic lander for the study of exchange across the sediment-water interface.

**S BAUER, G L HITCHCOCK & D B OLSON** (USA), Influence of monsoonally-forced Ekman dynamics upon surface layer depth and plankton biomass distribution in the Arabian Sea.

**J H LEE & G VERONIS** (USA), On the difference between tracer and geostrophic velocities obtained from C-SALT data.

**J L CHARLOU, H BOUGAULT, P APPRIOU, P JEAN-BAPTISTE, E ETOUBLEAU & A BIROLLEAU** (France), Water column anomalies associated with hydrothermal activity between 11°40' and 13°N on the East Pacific Rise: discrepancies between tracers.

**C PIERRE, C VERGNAUD-GRAZZINI & J C FAUGERES** (France), Oxygen and carbon stable isotope tracers of the water masses in the Central Brazil Basin.

**Indexed/Abstracted in:** *Chemical Abstracts Service, Current Awareness in Biological Sciences (CABS), BIOSIS Data, Engng Ind, INSPEC Data, Curr Cont ASCA, CAB Inter, Curr Cont/Agri Bio Env Sci, Curr Cont/Phys Chem & Earth Sci, Curr Tit Ocean, Geo Abstr, Geo Bib & Index, Petrol/Abstr, Curr Cont Sci Cit Ind, Curr Cont SCISEARCH Data, EPB*
